

Short Summary for Investors:

# GloLi – GlobalLink System

In the constantly changing digital world, DIGITAL BUILDERS GmbH, led by Andreas M. Fitzé, is opening a new era of communication with GloLi. GloLi combines the efficiency of the digital world with the familiarity of traditional telecommunications, supported by the latest AI technology, to create a revolutionary, integrated communication platform.

## Key points for investors:

- 1. Innovation leader:** GloLi uses the most advanced technologies such as AI and real-time language translation to offer a universal platform that breaks through global communication barriers.
- 2. Future-proof:** Focusing on 5G technology and the integration of machine learning, GloLi dynamically adapts to future market trends and technological developments, securing a long-term investment.
- 3. Large market potential:** The global telecommunications market, with a volume of \$1,805.61 billion in 2022, is ripe for a platform like GloLi, which will transform the way people communicate worldwide.
- 4. User-centered design:** GloLi focuses on accessibility, personalisation, and user-friendliness to ensure optimal customer satisfaction and market penetration.
- 5. Strong growth strategy:** With planned phases of research, development, and global expansion, GloLi is set to scale quickly and secure a significant market share.
- 6. Commitment to security and privacy:** By incorporating open standards and transparency in development, GloLi underscores its commitment to the highest security and privacy standards.

## Investment Opportunity:

GloLi is at the beginning of a promising journey to redefine global communication. With a projected funding need of 45 to 55 million euros over the next five years for the following phases:

**Phase 0:** Concept – 6 months – approximately 0.5 to 1 million euros

**Phase 1:** Research/Development – 6 months – approximately 5 to 10 million euros

**Phase 2:** Market Launch/Pilot – 1 year – approximately 10 million euros

**Phase 3:** Expansion/Scaling – from the 3rd year – approximately 10 million euros/year

We offer investors the unique opportunity to become part of a future-oriented solution that promises financial returns and brings the world closer together. We invite you to invest in GloLi and jointly shape the next generation of global communication. Become part of our mission to create a platform that not only revolutionizes the communication landscape but also fosters lasting connections across borders.
